Hide the **Rental Agreement Duration** field when the user selects **Buy**.

Go to

Workflow

→ Field Actions

→ Requirement

→ On User Input

Use the following Deluge script:

```
if(input.Requirement == "Buy")
{
   hide Rental_Agreement_Duration;
}
else
{
   show Rental_Agreement_Duration;
}
```

Step 8: Test the Application

Enter sample data.

Field	**Value**

Customer Name	Arun Kumar
Email	arun@gmail.com
Mobile Number	9876543210
Property Type	Apartment
Requirement	Rent
Area	1200 Sq.ft
Location	Velachery
Budget Range	20 Lakhs – 50 Lakhs
Property Value	30,00,000
Bedrooms	2 BHK
Rental Agreement Required	Yes
Rental Agreement Duration	11 Months

Click **Submit**.

The property request will be stored and displayed in the report.

Expected Output

- Users can submit property buying or rental requests.
- Property details are stored in the cloud using **Zoho Creator (SaaS)**.
- Users can view all records in the **Property Report**.
- The dashboard provides quick access to the form and report.
- A workflow automatically updates the property status after submission.
- The rental agreement duration field is shown only when the requirement is **Rent**.
